Impact of Intersectional Microaggressions on Racial Justice in Higher Education Transnationally: survey responses from students in Gauteng, South Africa and New Mexico, U.S.A.

Presentation to United States-South Africa Racial Justice Fellows | 27 June 2023 | 9-10.30am SAST
Assata Zerai, Ph.D., RIMA PI; UNM Vice President for Equity and Inclusion; Professor of Sociology
RIMA Co-PIs: Nancy López, Ph.D.; Teresa Y. Neely, Ph.D.; Heather Mechler, Ph.D.; Mónica Jenrette, B.B.A. | The University of New Mexico
Today’s presentation

- Acknowledgements
- Introductions: what is your 7-word biography?
- Defining intersectional microaggressions
- Relevance of microaggressions to racial justice in higher education
- Exploring results of RIMA and GIMA surveys in U.S.A. and South Africa
- Teaching our colleagues to become upstanders
- Discussion
Ice Breaker:
Seven-Word Autobiographies

• Please share your 7-word autobiography
• Think carefully and use words that will sum up your life experiences to date
• We love cryptic and very interesting
• Also please share your higher-ed institution & pronouns
Professor Assata Zerai’s Biography

Assata Zerai, Ph.D. [she | her] is 2023 Fulbright-Hays Scholar & Visiting Professor in the School of Human and Community Development at University of the Witwatersrand. Dr. Zerai holds a full-time position as Professor of Sociology & Vice President for Equity & Inclusion (VPEI) at University of New Mexico (UNM). As VPEI Zerai leads, resources, & documents improvements in equity at UNM. Zerai is Professor Emerita of sociology at the University of Illinois at Urbana Champaign, where she served from 2002-2019 & held posts as Associate Provost & Associate Chancellor. A decolonial feminist scholar, she has published 5 books spanning multiple topics including BIPOC and LGBTQ+ inclusivity in U.S. Protestant churches; MCH; access to safe water, sanitation, & mobile technology in Southern and East Africa; & making the work of marginalized scholars more accessible. She is currently writing her 6th book, a monograph, *Decolonizing the Westernized University: Black Feminist Interventions.*
Terms used interchangeably, acronyms and relevant notes

- **Black**—includes Black people of African descent, and in South African context, this includes African, Chinese, Indian and Coloured individuals

- **Black, Indigenous, and People of Color (BIPOC)**, also includes Latinx/Hispano, Asian American and Pacific Islander, and Multiracial individuals +

- **Gender and intersectional microaggressions (GIMAs)**

- **Gender Based Violence (GBV)**

- **LGBTQIA—lesbian, gay, bisexual, transgender, queer/questioning, intersex and asexual (LGBTQIA); may be referred to as ‘queer and trans’**

- **Middle East and North Africa (MENA)**

- **Persons with Disabilities (PWD); includes physical, emotional, cognitive, and/or sensory disabilities**

- **Racial and intersectional microaggressions (GIMAs)**

- **Sexual Orientation, Gender Identity and Expression (SOGIE)**
Microaggressions are defined as brief and commonplace daily verbal, behavioral, and environmental indignities that communicate hostile, derogatory, or negative racist, sexist, ableist slights and insults toward Black, Indigenous and other People of Color (BIPOC), women (Nadal 2010), Nonbinary, Gender Fluid individuals, and Persons with Disabilities (PWD).

In an ongoing study in Gauteng province, SA, my team and I are examining Gender and Intersectional Microaggressions (GIMAs) research has shown that such microaggressions, sexism, and women and gender-focused incivility are related to higher rates of Gender-Based Violence (GBV) (Gartner and Sterzing 2014).

In fact, “gender microaggressions exist as a unique form of youth sexual violence and function as a potential ‘gateway mechanism’ to legally actionable offenses”.

[Note: in accordance with UN and Declaration on Elimination of Violence against Women, “‘gender-based violence (GBV)’ is used to cover all forms of sexual and gender harassment, abuse, and rape”, as noted by Finchilescu and Dugard 2018.]
Research has shown that racial & intersectional microaggressions (RIMAs), “brief and commonplace daily verbal, behavioral, or environmental indignities, whether intentional or unintentional, that communicate hostile, derogatory, or negative racial slights and insults toward people of color” (Sue, et al., 2007) are a threat to inclusive climates in higher education.

Though RIMAs can be subtle and are often dismissed by perpetrators, their effects can cause anger and often drain the psychic energy of Black, Indigenous, and people of color (BIPOC, including Latinx, Asian American and Pacific Islander (AAPI), and multiracial individuals) emotionally and physically (Pierce 1969, 1970, 1974; Solorzano 1998; Sue, et al 2003; Sue 2010).

Unfortunately, RIMAs create inequities in education, employment, health care, and housing. Implicit bias can lead to racial microaggressions (NEA Center for Social Justice).
“Microaggressions” coined by Prof Chester Pierce (1969); Derald Wing Sue’s taxonomy of & catalog of ways to interrupt RIMAs (2007, ff); Harwood, et al UIUC studies (2010; 2012, ff)
Black student experiencing persistent racial harassment and assault: communicating aggression via strategically placed litter

“I cleaned and disinfected my practice room. Each time I returned to it there was trash in it. I asked to have my room assignment changed. After I began using the new room, a banana peel was left in it. I was the only student that had signed up for those spaces. I stopped using the practice rooms.”

Imagine you are a Black student, and this has happened to you. Consider the relevance of the broader context of a state and university with low percentages of African Americans, relative to other minority groups, and the experience of being a minority of a minority.

You may ask—or even begin a pattern of ruminating on the following Qs:

- Were these acts deliberate?
- Is this an example of a racial assault – similar to “old fashioned racism”?
- Did perpetrators target me as a woman or an African American?
Black student reports experiencing persistent racial harassment and assault: communicating aggression via strategically placed litter

- This is an example of a racial & intersectional microaggression (RIMA).
- *Regardless of the intention* of perpetrators, this student reports persistent harassment and assault.
- Why is this student’s social and spatial location relevant to her interpretation of the litter in her practice room? [I invite you to provide responses via chat.]
- What impact might this experience have on you if you were targeted by this or a similar RIMA? [I invite you to provide responses via chat.]
Importance of social context in a state and university with low percentages of African Americans relative to other minority/minoritized groups

- Physical threat against Director of Africana Studies
- Public challenges to 2 Black women appointed to Governor’s cabinet because they were not Hispanic
- Perceptions of a general climate of anti-Blackness [e.g., AA followed in stores; only 13 tenure-system Black faculty at UNM*; public reports indicating AA’s are “insignificant”-and policy impact; focus on providing public resources to male Black religious leaders that obscures intersectional identities within Black communities]

*On a campus with 23k students and over 800 faculty
Racial assaults are conscious actions meant to demean a person through deliberate and overt racial discrimination; in this case it is a nonverbal attack, and as often happens, was hidden, as perpetrator(s) carried out acts of aggression while unseen.

- How do the hidden identities and motives of perpetrators add to potential negative effects experienced by this student? [I invite you to provide responses via chat.]
- Note that part of the insidious nature of this harassment is that without interventions, the student may ruminate on the incidents.
What’s at Stake? RIMAs impact students’ sense of belonging and reproduce structural inequality in higher education

- Limit access to research assistantships (Moss-Racusin et al., 2012)
- Decrease quality of letters of recommendation (Madera et al., 2018)
- Limit reviewers for papers and grant proposals (Hostra et al., 2020)
- Students told to drop classes or switch majors (Lewis et al., 2019)
- Students may withdraw from interactions with faculty, TAs & staff - miss out on key social capital (Nadal et al., 2014; Lewis et al., 2019)
- Students may leave the university (Lewis et al., 2019; Williams 2019, 2020)
Types of Racial & Intersectional Microaggressions

- **Racial insults**, e.g. “You speak well”
  - Rude and insensitive actions or comments that insult BIPOC by signaling that the individual is considered *inferior* to a white counterpart, less intelligent, a second-class citizen, and given to behavior and criminality inscribed upon race. Often unconscious.

- **Racial invalidations**, e.g. “When I look at you, I don’t see color.”
  - Actions or comments that negate or ostracize BIPOC *lived realities*. Often unconscious.

- **Racial assaults** – similar “old fashioned racism”, e.g., lynching threat against Black Studies Director, explicit (not implicit)
  - Typically are conscious actions meant to demean a person through deliberate and overt racial discrimination, which can be *violent verbal or nonverbal attacks*, often hidden.
Environmental or Institutional RIMAs

- Courses where all of the readings, lectures, and content reflect a white Eurocentric perspective and/or do not include Black and women authors.
- Mostly or all white and male portraits in places of honor.
- Environmental symbols like offensive mascots, monuments, building and street names, etc.
- College majors, classes, meetings, etc. that have one or a few BIPOC students and faculty.
Two Microaggressions Surveys:
• WITS GIMA Survey 2023 (ongoing)
• UNM RIMA Survey 2021
A study of GIMAs at Wits

In this study, we:

- Conducted a photovoice project to inform GIMA survey
- Are administering a GIMA Survey (launched 26 May 2023 to over 40k students), and based on the research literature and survey results,
- Will design interventions and lead workshops to guide the Wits community in interrupting microaggressions (expected July-December 2023)
- We are learning that microaggressions are intersectional (Zerai et al 2021; Zerai 2023):
  - Such experiences are not only shared by students who are Black (in South African context, this includes African, Chinese, Indian and Coloured individuals), women/nonbinary, persons with disabilities (PWD), and those who are LGBTQIA
  - but may be amplified when a student occupies a combination of these intersecting social locations
GIMA PHOTOVOICE PROJECT
Day 1: orientation;
Day 2: photo upload & discussion

- Students were invited to take pictures of places where they spend time together on campus
  - They captured places where they feel safe
  - And they also captured places they may typically wish to avoid
- They uploaded their pictures & described them
- 25 students participated
- We received a list of places (see subsequent slides)
- These places were added to the GIMA survey. In the survey we ask in which places do they feel uncomfortable or that they avoid. And we ask why.
“This is a male-only residence, and such spaces are a bit uncomfortable for queer people like myself ... most (residents) in this place are cis-het men who treat me a bit different because of how in-tuned I am with my femininity.” --- Photovoice Participant 5.18.23
Great Hall: Robert Sobukwe Building

I feel comfortable when I am here.

“It is my motivation to one day take graduation pictures in front of Great Hall.”-- Photovoice Participant 5.18.23
Classroom: Lecture Hall

I feel comfortable when I am here.

“All the lecturers that I have encounter(ed) are queer-friendly and (promote) a sense of belonging ... I feel at peace, and I can contribute to the class (comfortably, without fear of) being queer; and the space maybe enforces that all students act properly considering some of the (guiding) policies (available)... so I feel comfortable here.”– Photovoice Participant 5.18.23
“I feel anxiety because this is a space where most of us are not doing so good this year (3rd), and this worries me because I might end up failing.” -- Photovoice Participant 5.18.23

WhatsApp Group (for Maths III, School of Science)
Life-size Chess Board and Pieces outside an Academic Building on Education Campus

I feel both comfortable and uncomfortable.

“I feel both safe and unsafe depending on the time of day. There isn't much security, like cameras at night to capture an incident .... During the day I love being here because I am learning how to play chess and this place accommodates me.”—Photovoice Participant 5.18.23
I usually avoid this place.

“It is a narrow pathway and I avoid this place at night. I feel as if I might get mugged or get injured in some way.”—Photovoice Participant 5.18.23
GIMA PHOTOVOICE RESULTS

PROMPT: WHAT ARE SOME PLACES ON-CAMPUS WHERE YOU HANG OUT? WHAT ARE PLACES WHERE YOU FEEL UNCOMFORTABLE OR AVOID?

- Academic Spaces
  - Instructor’s Office
  - Computer labs
- Campus Buildings
  - The great hall at night
  - Campus bathrooms
- Indoor Gathering and Meal Spaces
  - MATRIX
- Support Offices
  - Counseling & Career Development Unit
  - Financial Aid Office
- Public transportation & Parking lots
- Social media & virtual spaces
- Bridges, walkways, & passageways
- Exam and testing facilities
- Balconies, lawns & outdoor gathering spaces
- Sports and recreation facilities
  - Wits multipurpose sport hall (OMSH)
- Wits on and off campus residences
- Other spaces?
Emerging themes in the photovoice analysis

**Belonging at Wits**
- Classrooms as a safe space
- Queer-friendliness (e.g., lecturers as allies, Gender Equity Office, Gay and Lesbian Archive)
- Exclusionary toxic masculinity:
  - In certain majors
  - In male residence halls

**Hopes, Dreams, & Joy**
- Concerns about academic progress
- Looking forward to graduation
- Imagining future professions
- Study breaks: “De-stressing”
- Recreational activities and social outlets

**Physical Safety Concerns**
- Inadequate lighting at night
- Lack of security cameras
- Secluded areas of campus
- Fear of assault
- Past negative experiences in the space (personally or vicariously)
- Reports of robberies
Interrupting GIMAs at Wits

- Further this project will develop a toolkit for interrupting microaggressions.
- The toolkit will be developed based on survey results from students, and consultations with Wits students and colleagues …
- With the hope that the Wits community can work collectively to become more effective “upstanders” (active bystanders who are prepared to interrupt microaggressions & GBV),
- And thus improve the security & learning environment for all students at Wits.

Note: Ethical clearance obtained from UNM, U.S. Dept of Education, and Wits.
The Microaggressions online surveys at Wits and UNM

- Explores the experiences of undergraduate and graduate students at UNM who are:
  - **Black/BIPOC** (Black, Indigenous and People of Color, to include individuals identifying as Asian/API, Latinx, and/or Multiracial)
  - **Persons with Disabilities (PWD)**, includes physical, emotional, cognitive, and/or sensory disabilities
  - **Women & LGBTQIA** (Lesbian, Gay, Bisexual, Transgender, Queer/Questioning, Intersex, Asexual)
- The UNM RIMA survey was administered Spring Semester 2021
  [https://campusclimate.unm.edu/initiatives/rimasurvey.html](https://campusclimate.unm.edu/initiatives/rimasurvey.html)
UNM RIMA Survey 2021: A Summary of Results
## Overall Sample Selection and Response

<table>
<thead>
<tr>
<th>Category</th>
<th>Number Flagged for Sample</th>
<th>Number flagged who responded</th>
<th>Response rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIPOC</td>
<td>4,480</td>
<td>532</td>
<td>11.9%</td>
</tr>
<tr>
<td>Persons with Disabilities</td>
<td>1,305</td>
<td>206</td>
<td>15.8%</td>
</tr>
<tr>
<td>LGBTQIA</td>
<td>246</td>
<td>67</td>
<td>27.2%</td>
</tr>
</tbody>
</table>

Note: Students could select more than one category.
As an R1 Hispanic Serving Institution (HSI), UNM students reported lower rates of racial microaggressions relative to Predominantly White Institutions in U.S.

However, reports of RIMAs targeting Black students at UNM were higher relative to other racial groups.

Furthermore, students with disabilities most frequently reported experiences as targets of RIMAs at UNM, relative to BIPOC and LGBTQIA students.

And LGBTQIA students reported lowest incidence of RIMAs, relative to BIPOC and PWD students.

Places where Black and all students feel uncomfortable [*indicates top spaces for all students]
Students were asked open ended questions about their experiences. Sets of questions were customized to address BIPOC, PWD and LGBTQIA concerns.

“Describe a situation in which you felt uncomfortable, insulted, invalidated or disrespected by a comment that had:

- “Racial overtones”
- “Homophobic or Transphobic overtones;
- “Ableist overtones (ableism is discrimination and bias against Persons with Disabilities)”

• Some were unwilling to answer. One noted: “I don't feel comfortable answering because of potential retaliation.”

• Others indicated that they had largely positive experiences. These are all listed at the end of this section of the slide deck.
RIMAs with focus on Race - Themes

Students marginalizing their BIPOC peers

- Lack of bystander intervention on part of classmates: BIPOC student uncomfortable being put in the situation of confronting use of “n word” when they did not witness this
- Insensitive and demeaning language: Colloquial use of “ghetto” and making fun of certain neighborhoods
- Classmates avoiding BIPOC students in other venues
- Stereotypes expressed against BIPOC students
  - Harassment of BIPOC students during group work
  - Assumptions that Native students do not pay tuition
  - Affirmative action assumptions

Concerns with faculty behavior, access to mentors, campus policy & authorities who do not intervene

- Criminality and suspicions directed toward BIPOC students & concerns about campus security: Perception of disparate treatment due to racialized assumptions concerning criminality
- Students’ perceptions that faculty and administration practice color-evasive racism (i.e., assuming they “do not see race” and thus dismissing experiences of BIPOC students), and communicate implicit and explicit messages that certain groups do not belong
- Racially insensitive statements
- Expressions of surprise concerning academic accomplishments of BIPOC students
- Faculty dismissal of impact of racism on BIPOC students
- Lack of Black mentors
Describe a situation in which you felt uncomfortable, insulted, invalidated or disrespected by a comment that had racial overtones:

Belittling of Black students’ academic accomplishments:

- “Whenever I make an academic achievement. It's consistently perceived as 'Surprising' not sure why that is. It's another micro aggression regardless of the 'positive' intent it doesn't diminish the impact. That a Black person can be intelligent, at least in the way certain individuals perceive intelligence.”

- “At the graduate level, I’ve had unsolicited discussions about [how] they felt Affirmative Action was unfair.”
“Meeting w/ program advisor and she indicated that I don't have a severe mental illness (despite documentation), I just do not have my priorities straight, because she knows plenty of people with depression who do not struggle or make a scene like I do. ... She told me that medication was not going to help me because it is just a flaw in my personality.”
“Transphobic undertones are just so rampant in my academic program. People are really well intentioned, but they just act like trans people don't exist … and show notable discomfort (uncomfortable laughing, grimacing) when I bring up trans bodies and experiences...”

“Being misgendered regularly despite having my pronouns worn or in my zoom name”

“Once in a class, I said 'trans women are women' and the professor said 'not for everyone though'”
The top concern of BIPOC, Students with Disabilities, & Queer and Trans students is the perceived inaction of authorities – staff observing RIMAs, department chairs, faculty, advisors, and graduate assistants.
See link to toolkits for interrupting RIMAs, https://campusclimate.unm.edu/rima-survey/research.html

• DEI led workshops to practice interrupting RIMAs
• “Upstander” workshops have shown positive results.
• Focus of workshops is to build community.
• Faculty, students, & staff get the opportunity to practice interrupting RIMAs.
• Note: an upstander acknowledges experiences of individuals experiencing RIMAs and is willing to serve as an ally and advocate.

**Sources:** Harwood et al (2010); Zerai et al (2021); Adapted from: Kenney (2014); Kraybill (2008); LeBaron (2008); Peavey (2003); Sue (2010).
Intervention Examples: Four Communications Approaches that can be Generalized to Multiple Scenarios

- [1] INQUIRY [STRATEGIC Qs] & ACCURATE INFORMATION: Ask the speaker to elaborate. This will give you more information about where they are coming from. It may also help the speaker to become aware of what they are saying.
  - KEY PHRASES:
  - “Say more about that.”
  - “Can you elaborate? ” “It sounds like you have a strong opinion about this. Tell me why,” “What is it about this that concerns you the most?”
  - “Did you know” [add fact from literature to dispel stereotypes, such as: “Did you know African Americans give the greatest % of their earnings to charity?”]
SMALL GROUP Session

- Take a look at the handout **Interrupting RIMAs**
- Discuss the ways in which you would interrupt a racial, SOGIE (sexual orientation and gender identity and expression), gender/sex, religious, PWD (Persons with Disabilities)-targeted microaggressions and implicit bias.
- Plan to share your interventions with the group
- You will have approx. 8 minutes to discuss
- Then we will report back to the group
- We will practice for the first case
“I cleaned and disinfected my practice room. Each time I returned to it there was trash in it. I asked to have my room assignment changed. After I began using the new room, a banana peel was left in it. I was the only student that had signed up for those spaces. I stopped using the practice rooms.”

GROUPS 1-2: Imagine this has happened to you, as a Black trans student.

GROUP 3-4: Imagine you were the white Latina staff person who assigned practice rooms and that this was brought to your attention.

GROUP 5-6: Imagine you are the white cis-gender female department chair, and that the staff person brought this to your attention.
We will assign you to a small group

See Toolkit: Interrupting RIMAs

- Your group will examine one case at a time. Discuss the ways in which you would interrupt racial/ethnic, SOGIE (sexual orientation and gender identity and expression), gender/sex, religious, PWD (Persons with Disabilities)-targeted RIMAs.

- Plan to share your interventions with the larger group.

- You will have approximately 8 minutes in each small group session (assign facilitator, notetaker and reporter).

- Then we will report back to the group by sharing your observations and interventions in the chat and out-loud (5 minutes).

- We will repeat this to look at the second case, and then the third and final case.
A neurobiologist wrote a letter to his colleagues. He signed the letter with his birth name, Barbara Barres, but made it clear that from now on he wished to be known as Ben. “Whenever I think about changing my gender role, I am flooded with feelings of relief,” he wrote. “I hope that despite my transgender identity you will allow me to continue with the work that, as you all know, I love,” he concluded his letter.

Prompt: Think of your various roles in your department.

GRPS 1-2: How would you respond if one of your faculty colleagues continually referred to Ben as Barbara?

GRPS 3-4: How would you respond if the dean misgendered Ben?

GRPS 5-6: How would you respond if your students misgender Ben?
CASE 2

Ben shares with his colleagues that he is transgender:

* a true story

- A neurobiologist wrote a letter to his colleagues. He signed the letter with his birth name, Barbara Barres, but made it clear that from now on he wished to be known as Ben. “Whenever I think about changing my gender role, I am flooded with feelings of relief,” he wrote. “I hope that despite my transgender identity you will allow me to continue with the work that, as you all know, I love,” he concluded his letter.

- This is a true story: To Barres’ great joy, his colleagues responded with unwavering support. What they didn’t know was that he’d been unable to sleep for a week as he mulled whether to transition to male or commit suicide.

- See [https://mitpress.mit.edu/books/autobiography-transgender-scientist](https://mitpress.mit.edu/books/autobiography-transgender-scientist)
CASE 2

Ben shares with his colleagues that he is transgender: a true story

Comments from UNNM LGBTQ-RC Director, Frankie Flores:

- Being true to oneself is a privilege many LGBTQIA folks do not experience.
- The suicide rates for LGBQIA folks are 5 times higher than the national average. For trans folks, 41% attempt suicide at least once.
- Heterosexism, homophobia and transphobia are extremely dangerous for the LGBTQIA community because it posits our existences in correlation to who we love and ignores the reality that we are a culture. We would never ask a person to minimize their gender, ethnicity or other innate status.
Advisor: “Come in”

Student with a Disability: (comes in and take a seat) Hi. I’m here today because I’m feeling a bit overwhelmed with my workload this semester. I taking 18 credits and think it will help me if I drop one.”

Advisor: “Well you know this is a tough major. Have you considered other majors that will be less demanding?”

***

Group session:

- What RIMAs are present?
- Act out the scene and include ways to interrupt RIMAs ~ Groups 1-3: student; Groups 4-6: advisor
**Case 3**

**Student with a Disability Meeting with Academic Advisor**

- **Advisor:** “Come in”
- **Student with a Disability:** *(comes in and take a seat)* Hi. I’m here today because I’m feeling a bit overwhelmed with my workload this semester. I’m taking 18 credits and think it will help me if I drop one."
- **Advisor:** “Well you know this is a tough major. Have you considered other majors that will be less demanding?”
- **Intervention example:**
  - *(Volunteer) PWD Student:* I believe that I can succeed in this major with the proper support. Do you have resources that can help me to succeed? If they say no, ask them to recommend someone else that you can speak to about support.
  - **Advisor:** I am sorry. Why are you taking 18 credit hours again?
  - **PWD Student:** I am trying to graduate early because I cannot afford my senior year.
Workshops with break-out sessions are impactful. The only way to get comfortable with interrupting RIMAs is by practicing!

What did you learn?

How would you like to follow up on this workshop?

Thank you for the opportunity to discuss RIMAs, and ways to reduce the impact of RIMAs implicit bias in the classroom.

Inclusion today is the key to innovation tomorrow. Our efforts will help us to produce leaders in the work force who enhance equity and inclusive excellence in their respective fields.
